2021 Minotaur SkyRace and Mini-Taur 10 KM Cancelled

It is with extreme disappointment that we announce the cancellation of the 2021 Minotaur SkyRace and Mini-Taur 10km.

Our event is just over 2 months away; and, as of right now, the current Covid-19 restrictions prevent us from hosting it. With no definitive timeline in place for the easing of restrictions, we cannot continue to move forward with the planning, financial expenditures, and manpower required to make our event happen.

While we remain hopeful that the vaccine rollout will continue as scheduled; there are just too many uncertainties surrounding the provincial vaccination targets, the control of the virus and its variants, and current travel restrictions/advisories. The reality is that the current restrictions in Alberta are in place indefinitely.

Our industry has been hit very hard by the pandemic, and it is our sincere hope that we will see some races take place safely and successfully later this summer. We are devastated that our race will not be one of them.

We are offering 100% deferrals to our new date of June 25, 2022. There is no need to contact us to confirm your deferral - your entry will automatically transfer over to 2022, and you're guaranteed a spot in the race. If you cannot accept the deferral, please email us at hq@meettheminotaur.com by Oct 1, 2021, and we will issue a 50% refund.

We are truly sorry to make this announcement, please know that we have evaluated many options, and this decision was made with very heavy hearts.

We will do our best to get back to emails and messages within a few days of receiving them, thanks for your patience and support.

Andrew, Erin, Ian & Susan
